

I N D E X (UTRAULA)

Chapter		Description	Page No.
Chapter-1		INTRODUCTION	03
1.1		Purpose of the report & justification	03
1.2		Bajaj Hindusthan Ltd. & Power Scenario	03
1.3		Technical Details of Proposed Plant	12
1.4		Location Details	13
1.5		The approach	13
	1.5.1	Road	13
	1.5.2	Rail	13
	1.5.3	Airport	13
1.6		Scope and methodology of EIA study	15
	1.6.1	Scope of EIA	15
	1.6.2	Methodology of EIA	15
Chapter-2		PROJECT DESCRIPTION	17
2.1		Plant Details	17
	2.1.1	Power Generation process	10
	2.1.2	Raw Material	19
	2.1.3	Technical features of Proposed Power Plant	20
	2.1.4	Plant Cycle	22
	2.1.5	Water Systems Raw Water	23
	2.1.6	Water Cooled Condenser	24
	2.1.7	Fuel Oil System	25
	2.1.8	Air conditioning and ventilation system	25
	2.1.9	Air System	25
	2.1.10	Fuel Handling system	26
	2.1.11	Flue Gasses	28
	2.1.12	Ash handling system	29
	2.1.13	Plant Electrical system	29
	2.1.14	Instrumentation and control system	30
	2.1.15	Pollution Control system of power plant	30

CHAPTER-3		EXISTING ENVIRONMENTAL STATUS	
3.1		Land use Pattern	35
	3.1.1	Objective	35
	3.1.2	Methodology	36
	3.1.3	Land use data from satellite imagery	37
3.2		Meteorology (Aerial Environment)	38
	3.2.1	Methodology & Analysis	38
3.3		Ambient Environment Quality	39-53
	3.3.1	Details of the sampling locations	42
	3.3.2	Sampling and testing methodology	43
	3.3.3	Analysis of baseline concentration	43
3.4		Noise Environment (Aerial Environment)	53-54
	3.4.1	Reconnaissance	53
	3.4.2	Existing Noise Environment	55
3.5		Water Environment	56
	3.5.1	Introduction	56
	3.5.2	Surface Water Quality	56
	3.5.3	Ground Water Quality	57
3.6		Land Environment	63
	3.6.1	Geology/Hydrology of District Balrampur	63
	3.6.2	Soil Sampling & Analysis	68
	3.6.3	Land Use & Agriculture	72
3.7		Biological Environment	76
	3.7.1	Terrestrial Fauna	76
	3.7.2	Terrestrial Flora	79
	3.7.3	Planktons	83
3.8		Social Economic Environment	86
	3.8.1	Demography at Distt. Balrampur, Teh. Utraula, Vill. Itai Maida.	86
	3.8.2	Availability of Infrastructural Facilities	86
	3.8.3	Medical & Health Services	86
	3.8.4	Human resources development	86

CHAPTER-4		PREDICTION & ASSESSMENT OF IMPACT	92
4.1		Impact Identification	92
	4.1.1	Aspects of the Environment	92
	4.1.2	Activities which can create impact	93
	4.1.2.1	Construction phase	93
	4.1.2.2	Operational phase	93
4.2		Prediction & assessment of Impacts during construction Activities	93
	4.2.1	Air Environment	94
	4.2.2	Water Environment	94
	4.2.3	Noise Environment	94
	4.2.4	Social economic Environment	94
4.3		Prediction and assessment of Impact on Air	95
	4.3.1	General	95
	4.3.2	Identification of Air Pollutants	95
	4.3.3	Air pollution control measures	96
	4.3.4	Assessment of Air Impact based on application of ISCT3 model	97
	4.3.5	Air Modeling	98
4.4		Prediction and assessment of Impact on water Environment.	102
	4.4.1	General	102
	4.4.2	Impact on raw water	102
	4.4.3	Impact due to effluent discharge	102
4.5		Prediction and Assessment of Impact due to solid waste	103
	4.5.1	Ash handling system	103
	4.5.2	Action plan for fly ash utilization	104
	4.5.3	Spent oil & waste oil	104
4.6		Prediction and assessment of Impact on Noise Environment	104
4.7		Prediction and assessment of Impact on Socio -economic environment	105

4.8		Environmental Impact analysis	105
	4.8.1	During site preparation, construction and erection phase.	106
	4.8.2	During operation activities	107
CHAPTER-5		ENVIRONMENTAL MANAGEMENT PLAN (EMP)	109
5.1		Air Environment	109
		(A) Construction Phase	109
		(B) Operation Phase	110
5.2		Noise Environment	112
		(A) Construction Phase	112
		(B) Operation Phase	112
5.3		Solid Waste	113
		(A) Construction Phase	113
		(B) Operation Phase	114
5.4		Socio Economic Impacts	114
5.5		Occupational Health & Safety	114
	5.5.1	Occupational Health	115
	5.5.2	Safety and Emergency Plan	116
	5.5.3	Safety organization	118
5.6		Water Environment	118
5.7		Water Conservation & recharge	119
5.8		Waste Water Generation	119
5.9		Waste Water Treatment	120
5.10		Green Belt Development	120
5.11		Proposal for roof top rain water harvesting	123
5.12		Environmental Management Cell	124
5.13		Environmental monitoring during operation phase	124
CHAPTER-6		RISK ASSESSMENT	127
6.1		Risk assessment and an Approach to Emergency Preparedness Plan	127
	6.1.1	Preliminary Hazard Analysis	128
	6.1.2	Potential Hazards	131

	6.1.3	Maximum Credible Accident Analysis	131
	6.1.4	Summary of MCA Analysis	136
	6.1.5	Consequence Analysis	136
	6.1.6	Fire Protection and Safety Measurement for Fire and Explosion Hazards	136
	6.1.7	Emergency Preparedness Plan	138
	6.1.8	Structure of Emergency Management	140
	6.1.9	Evacuation of Workers and Shut Down of Operations	143
	6.1.10	Control of Emergency	144
	6.1.11	Emergency Equipment	144
	6.1.12	Training Facilities	145
	6.1.13	Interaction With Outside Agencies	146
	6.1.14	Interaction with Public & Press	147
	6.1.15	All Clear Signal	148
	6.1.16	Clean Development Mechanism (CDM)	148
CHAPTER-7		PROJECT BENEFITS	149
7.1		Project Benefits	149
7.2		Employment Potential	149
7.3		Reaching out the Community	149
7.4		Corporate Responsibility	150
CHAPTER-8		RECOMMEDATIONS	151
		CONCLUSION	153

LIST OF FIGURES

Figure No.	Details	Page No.
1.0	Location map showing the location of the site in India, Uttar Pradesh and in District Balrampur.	13A
2.0	Plant layout showing the establishment & green belt area.	17A
3.0	Process flow chart	18A
4.0	5.0 Km & 10.0 Km. radius map of site showing the Environmental monitoring stations (A1 - A9)	33A
5.0	15.0 Km. radius map of the site	33B
6.0	Land use map through satellite photograph	37A
7.0	Satellite imagery of site (10.0 Km. radius)	37B
8.0	24 hourly GLC of SPM-Isopleths	101A
9.0	24 hourly GLC of SO ₂ - Isopleths	101B
10.0	Waste Water Generation Flow Chart	102A
11.0	Flow Diagram of ETP	102B
12.0	Details of Ash Pond (Cross Sectional View)	111A
13.0	Design of Rain water Harvesting Pit	123A
